BOARD OF ACCOUNTANCY

1st ACCOUNTANCY STAKEHOLDER'S FORUM HELD

A historic event took place in PICPA Shaw last May 18, 2014 when the leaders of the accountancy profession gathered in the 1st Accountancy Stakeholder's Forum (ASF) organized by the Board of Accountancy.

Over 20 participants attended the forum, coming from the 7 sectoral accounting organizations, 2 standards councils, the Big 6 accounting firms and the complete Board of Accountancy. Chairman Joel Tan-Torres discussed the Regional and Local developments in the Accountancy profession and presented the priority projects under the Expanding Horizons (EH) initiative.

"This forum is intended to communicate to the major stakeholders in our profession the global and domestic environment that is or will be confronting our CPAs. Our fellow accountants should be aware on what is forthcoming in the near future and that they should be properly equipped to cope with these developments. The BoA will be there to provide the necessary support to as well as regulatory monitoring of the entire profession," Chairman Tan-Torres said.

The calendar of events until the end of the year was presented during the forum. The participants were also informed of the point person in the BoA for the various EH projects and sectoral organizations.

PGS Committee Head Normita Villaruz presented the Performance Governance System of the accountancy profession.

The next meeting of the ASF is scheduled on November 18, 2015.
